AMTRON®
4Business 700

**PROFESSIONAL CHARGING
MADE EASY**

APP FOR INSTALLERS

High-quality design, innovative technology, a wide range of customization options - MENNEKES presents AMTRON® 4Business 700, our new charging station series for intelligent charging in the commercial sector. AMTRON® 4Business 700 impresses with load management, flexible backend connection and access control via RFID. The charging stations can be operated with all OCPP-based backends. Seamless integration into energy management systems is achieved via Modbus TCP/EEBus. Further highlights: Coming Home function, floor lighting and replaceable front cover in eleven colors.

App operation and setup
The AMTRON® 4Installers app makes it easy to configure, commission and manage the charging points from a mobile device or PC. The AMTRON® 4Drivers app is available for the user.

All highlights at a glance

✓ Backend connection via OCPP: Remote monitoring and control including all billing options and connection to all OCPP-based backends

✓ Mobile radio modem

✓ MID meter: readable from the outside

✓ RFID authorization

✓ Load management

✓ Prepared for ISO 15118 (PnC)

✓ WIFI/LAN connection

✓ Quick and easy access to the charging point configurations via the AMTRON® 4Installers app

The advantages at a glance

Effective load management	Flexible backend connection	Access control via RFID	App operation and setup
